

SHIPOWNERS

SPECIALIST OFFSHORE ~~PACKAGE 2021 BASIC~~ & CONSTRUCTION PACKAGE 2022 CORE

Explanation

Although primarily designed with the offshore industry in mind, our cover packages are widely used in construction, not only offshore, but also in ports, harbours or other littoral installations. This change reflects the wider application of these products.

Renaming our Basic package as Core better reflects that this package is designed to cover offshore operators' liabilities arising from their core support activities.
