

Podcast: Addressing Suicide in the Maritime Community

On World Suicide Prevention Day 2025, the Club has collaborated with The Mission to Seafarers and LivingWorks to release a podcast titled 'Addressing Suicide in the Maritime Community'.

Hosted by the Club's Head of Loss Prevention, Bhaskar Nigam, the discussion with Shayne Connell (Director - LivingWorks Australia) and Thomas O'Hare (Programme Manager - The Mission to Seafarers) aims to provide our Members and the wider industry with resources to raise awareness about suicide in the maritime environment and how support can be provided in making life-saving choices.
