

Safety Culture: Raising a Safety Concern

As part of the Safety Culture series, the Club has been releasing a series of advisories in collaboration with industry experts.

The latest release which is available to view and download above, provides advice on how to raise a safety concern in a manner that helps to avoid an uncomfortable situation.

It can be daunting to raise a concern or challenge authority on safety matters. So as part of our healthy Safety Culture series, we have collaborated with Dr Claire Pekcan to share the PACE Method that can help seafarers to do so, empowering them to prevent incidents from occurring.
