

'Safe By Design' – Safety posters for fishing vessels

At Shipowners' Club, we are committed to driving welfare and safety within our communities. The Club has long been associated with the insurance of fishing vessels. Therefore, to assist our Members and their crew, the Club has partnered with [FISH Safety Foundation](#) to provide materials that can be used to raise awareness of safety concerns.

FISH Safety Foundation is an international non-profit organisation, dedicated to improving health and safety outcomes in the global fishing industry. They are committed to providing relevant practical education, access to useful resources and promoting a positive safety culture in the global Fishing Industry.

As part of this partnership, FISH Safety Foundation and the Club have collaborated to produce a range of 'SAFE by Design' posters that promote the use of safe systems and procedures.
